FROM EDITOR'S DESK

The year 2021 was tough for everyone and we can say 2021 was a year for change. We all have seen many changes due to Covid 19. This pandemic has taught us to find positive aspects even in a difficult situation.

Everyone has understood the importance of fitness, health, and wealth. At LBS, we started our new academic year with a new plan through a blended model of teaching and learning process. We organized all our curriculum sessions, extracurricular activities through online mode.

After Diwali, the government has permitted all higher education institutes and we started the classes with all necessary precautions.

The current volume of Ideation holds all information of the activities held in the previous 6 months i.e. from July 2021 to December 2021. Along with the regular teaching we organized more than 30 industry guest sessions and alumni sessions for students to know what are the current happenings in the industry and how to develop new skill sets. In August 2021 we organized the "Udaan 2021" program for Certificate distribution for all ABM and PHM students.

This year we celebrated our independence day through an online platform where our students performed various acts on the same platform. In October LBS organized a Vaccination camp for the students in association with Pimpri Chinchwad Municipal Corporation. On the occasion of LBS Chairman Bhaishree Shree Rameshbhai Patel's Birthday on 12th October we celebrated by arranging a Blood Donation Camp. In December 2021 LBS conducted "Junoon 2021" - The Annual Sports event. These events provide a platform for the students to develop various event management skills. This year LBS also supported students by providing opportunities to work in the industry for internships. The majority of the students get paid internships with attractive stipends. Now we are looking for the 2022 year with new hopes and better conditions. We will try to cope with the situation and develop new Managers, Entrepreneurs with refined skill sets.

Regards
Dr. Ganesh Pathak

ABOUT US

Lotus Business School, a part of Bhaishree Group has been created with a vision to impart quality management education and create world-class leaders. Lotus encourages the students to challenge the very basic concepts of management and leadership. The core team of Lotus comprises alumni of IIMs, JBIMS, Symbiosis, and ex-corporate employees of renowned organizations. In today's world where the industry and corporate life have become highly demanding and dynamic, it is imperative that future leaders are innovative and do not take things for granted. The encouragement to be innovative and be a maverick is the essence of the Lotus Pedagogy. Formed by a group of renowned Industrialists and Academicians, Lotus is an attempt to not only bridge the gap between the theory and the practical but also the effort that ensures the relevance of academics with the practicality of the subject.

From Executive Director's Desk
Mr. Charudatta Bodhankar

India, over the centuries, has never had a dearth of great thinkers, engineers, doctors, scientists, innovators, philosophers, and artists. However, in the last few decades, there has been a lack of an innovative and entrepreneurial ecosystem that can stimulate, enable, and support the Inspiration, Imagination, and Innovation of our young budding minds. Many Indians abroad have excelled and reached the highest levels of achievements in the field of technology, business, academia, and even government or policymaking. Many Indians are working as leading innovators in some of the largest and most innovative tech, medical, financial companies across the globe including Google, Microsoft, IBM, Adobe.

Access to an innovative ecosystem in these developed countries has allowed them to realize their aspirations, convert their dreams into realities, and help them blossom to their full creative potential. Entrepreneurship plays an influential role in the economic growth and the standard of living of the people of the country. Entrepreneurs are frequently thought of as national assets to be cultivated, motivated, and remunerated to the greatest possible extent.

We at Lotus Business School aim to equip students with leadership skills and an innovative mind-set to redefine the agriculture and pharma industry. Agriculture in India is the livelihood of a majority of the population and can never be undervalued. Despite its contribution to the GDP has reduced to less than 20 percent, the contribution of other sectors increased at a faster rate. However, the growth in agricultural production after the Green Revolution has made us self-sufficient and shifted us in a commanding role from being a begging bowl. There is a high untapped potential in India's agriculture sector.

The same applies to the Indian Pharma Industry. Indian firms have established themselves as leaders in the global pharmaceutical landscape during the Covid 19 scenarios. However, the shortage of delivery points and the lack of accessibility to drugs continues to be bottlenecks even for the pharma companies to fully utilize the domestic market.

Lotus aims to fill these gaps and develop a workforce competent to face these foreseen challenges and grab the growth opportunities. Lotus Business School, inculcating the values of the Bhaishree Ventures strives towards providing exceptional education to the students and providing them a platform to gain global exposure and opportunities for growth. With this belief, I invite you all to read the 5th volumes of the newsletter and wish all our students a bright future.

From Director's Desk
Dr. Satish Warpade

Welcome you all for the 5th volume of our biannual Newsletter -Ideation. I hope you all are fine!

Lotus Business School started its journey with an aim to develop holistic managers and leaders for tomorrow. Lotus is an amalgamation of experienced and efficient faculty, state-of-the-art infrastructure, and a supportive environment for the students to have a perfect balance of academics, sports, artistic and social opportunities.

The principal concern of our institution is to ensure students' overall growth along with intellectual excellence. Empowering them to develop their self-esteem, awareness, and confidence.

Today we are dealing with this unprecedented situation. The entire world is affected by this pandemic; our economy, our families, communities, and even our way of life are adversely affected by the scare of this pandemic. To tackle this COVID challenge we shifted to a more efficient learning approach through online lectures and assessment. I am sure that this new way of training will help the students to build skills and new productivity and collaboration skills to achieve success in this new world.

In the end, I would like to congratulate the team of LBS for their hard work and successful publication of the fifth volume of our newsletter, also I would take this opportunity to wish all our students a bright future.

Bhaishree Shri. Rameshbhai Patel's 72nd Birthday

Blood Donation Camp

Lotus Business School had organized Blood Donation Camp on the occasion of our beloved Bhaishree, Chairman of Bhaishree Group Shri Rameshbhai Patel's 72nd Birthday on 12th October 2021. Our Executive Director Mr. Charudatta Bodhankar and Director – Dr. Satish Warpade inaugurated the event by wishing Bhaishree on an online platform. Director sir, Staff Members and Students donated blood and took a small step to help society. Serological Institute's representatives had taken the responsibility of blood collection.

Ganesh Festival

As a tradition, Lotus Business School celebrated Ganesh Festival this year also by welcoming and worshipping Ganeshji. Students had taken initiative to invite guests from society, who are active and helping in various ways to our society. Mr. Gaurav Kelkar from SK Industries, Mr. Tushar Bhumkar (Social Worker), Mr. Ankush Gaikwad (Sarpanch, Jambhe), Mr. Bhausaheb Darphale (Social Worker) were invited for Ganesha arti. Our Director Sir, Dr. Satish Warpade felicitated all the guests. These guests interacted with students and had interaction with them related to concern topics of students.

15th August 2021

Independence Day at Lotus Business School is celebrated every year with an equal amount of zeal and passion by our students, teaching & non-teaching staff members on 15th August 2021. Due to the pandemic this year it is celebrated with the limited offline presence of students and through the online presence of all students. The great fighters who sacrificed their lives in the independence struggle are remembered with a lot of reverence and jawans who lost their lives on the battlefield are paid homage. The event started with Flag hoisting, followed by a speech given by our Executive Director – Mr. Charudatta Bodhankar and Director- Dr. Satish Warpade.

On this day Students performances competition was held. Students showed their talent through the online platform by performing dance, singing and poetry. Their participation and activeness showed that if we want to celebrate this day with enthusiasm even online also it is possible. Nothing can stop them to show their love towards the country. During the celebration, we also had given prizes to winners of the event 'AD ON SHOW' in which students had created television and radio advertisements considering different categories of products.

Industry Connect @LBS

I visited Lotus Business School, Punawale to conduct a Career Progression Program for ABM students from the 2020-22 batch. It was a very nice experience to interact with future leaders of the Indian Agri-Business Industry. Lotus Business School provides Industrial exposure to their students by inviting industrial experts with innovative ideas. Industries expect Aspirants who know the current industrial scenario which saves time for them to groom these aspirants as employees. And Lotus Business School bridges this Gap.

Mr. Murtuzaali Ginwala,
Director, Head of Operations,
Ginwala Advanced Farm Equipment
(GAFE) Pvt. Ltd

I love the whole idea of inviting an industry expert to the MBA campus to bridge the gap between what industries expect and what MBA students get from the theoretical courses. This idea itself is great. Inviting experts from industries to share their knowledge and experience to help the students. And the kind of passion Lotus Business School has about the development of students motivates me to bring my time out from my business and interact with students.

Mr. Yogesh Bafana,
Director of Optimist Brand Design,
Pune

Lotus Business School(LBS) helps students to grow both professionally and personally by enhancing managerial and business skills. Lotus Business School's emphasis on teamwork allows for thought-provoking exchanges with fellow students who come from diverse backgrounds and experiences. Certifications provided by LBS are useful for experiential learning.

Mr. Amol Patil
CEO - Glocal Support

I was called to Lotus Business School to conduct CPP on Packaging Management in Agriculture and Food Industry and I realized many doubts of students could be cleared through these sessions. The CPP program makes students ready for Industries. The CPP program is very useful for freshers to get practical exposure through Industry experts and it will help to remove many obstacles in their path.

Mr. Madhav Kawthekar
GM (Manufacturing)
Nichrome India Ltd

Today's competitive work & world environment moves at a fast pace. We need to be agile and fast-paced. The Lotus Business School offers MBA in Agri, Pharma & Healthcare Mgmt., Marketing, Finance, etc. which gives students the tools that allow them to understand customers' problems and provide them business solutions. The most valuable experience that is gained to students is knowledge from industry experts and Institute expert faculties are highly regarded. LBS also helps students to build relationships with industry experts.

Mr. Nitin Sawant
N.S. Wealth Solutions Pvt. Ltd.
