## **CASE-1**

# **Agriculture Produce Market Committee, Pune**

**(Field Visit Observation)**

**Case 1:- Agricultural Produce Market Committee, Pune  
(Field Visit Observation.)**

Institute had organized a Study tour named Field Visit observation on 22/10/2021 at APMC- **Agricultural Produce Market Committee, Pune:** Shri Chhatrapati Shivaji Maharaj Market Yard, Gultekdi.. The three markets which were covered in the visit were Flowers Market, Fruits Market and Vegetables Market (including Onion, Potato and Garlic). Providing students an exposure about actual practices and Practical working environment (reference to Agriculture produce) at APMC was the aim of the field visit. Dr. Anil Poman and Prof. Sudarshan Babar had accompanied students in the field Visit. All the students had assembled at around 5.05 AM in the college campus and departure to Market yard, Gultekdi was at 5.15 AM.

The first market visited was Vegetables Market (including Onion, Potato and Garlic) at 5.55 AM. The Official Representative of APMC helped all the students in knowing how and from where the vegetables are came from, how the selling and buying took place with details of payment systems, how the packaging is done and the Official Representative also showed all the students, the different products that are marketed at Vegetables Market like Onion, Potato, Tomato, Garlic, Coriander, Cauliflowers etc. The official representative was assisted and helped by local traders during this process. Fruits market covered large area of total land holding of Market yard and it is place where all fruits traded. On request of official representative, local traders explained and demonstrate the procedure of trading in fruits market specially Pomegranate and Banana. Students and faculty members get known about bidding procedure followed by traders. Advantages and disadvantages of this process were well explained by Local trader. He also asked suggestions from students to improve this process. The next market was flower market during this visit, students and faculty members explore all types of flowers available in Pune market specially transported from Ooty and Kolkata. Many traders energetically welcomed students and gave information about prices, Quality, packaging, flowers imported from and market trends. Students completed the visit at around 8.50AM. At 8.50AM, students and faculty members thanked official representative for his support and guidance. During the visit students observe and learn the different process like-

- Bidding process start midnight and end early morning.
- Bidding process is followed for all farm produces.
- Farmer daily visit APMC with fresh produces and after bidding payments will transfer by traders as soon as possible digitally.
- Method of packaging is different for different agricultural produces as per requirements.
- Retail traders buy farm produces from wholesale traders and make it available to public at different part of city.
- Few produces directly transported to other cities even states.
- Export quality produces availability is less.
- The APMC's service to farmers, commission agent, traders, importers, exporters etc. for the development of better trade and opportunity for farmers to sell his produced goods.
- Online Trading System: APMC lab where various agricultural produce are experimented based on the quality according to which the price for the produce is fixed.

## **CASE-2**

# **Management Games**

**Supporting documents**

### Case -2 (Management Game)

The more focus of Lotus Business School is on Participation and involvement of students in various activities conducted in Lotus Premises. Institute arranged Personality Development sessions and outsourced to External Expert. During the curriculum these Expert conducted various management games like –Tower Game, Alphabet Game, Icebreaking etc. In Tower Game they divided the total strength into various groups and form groups of 6 members. This activity was named as Tower Game and conducted on field. In these game groups are endowing with the News paper, Stapler and Glue. Groups have to make highest tower without any support using only newspaper and Glue. Student participated in this activity used their skills, creativity and completed the task given which surely taught them the importance of Participative Learning.

# **CASE-3**

## **Simulation in Classroom**

### **Supporting documents**

### Case 3 (Example of Simulation in Classroom)

The Institute focuses on experiential learning and problem solving techniques and outcome based education. In view of the same Putting theoretical knowledge into practice related to the area of Finance, Finance Faculty members teach live stock market analysis. In this Fundamental Analysis & Technical Analysis get cover. Students also use a "Stock trainer" mobile application for dummy virtual trading. Use of this activity results in students frequently discussing, sharing information about listed companies, business & latest happenings in the business world. In this process Madhukar Pawar, Student of MBA 1st year who is coordinating this activity along with Finance Faculty members. "Lotus Investment Lab," which is Whats app group for the students created by faculty members, in which daily updates get provided about market, IPO, Mutual Fund & other financial instruments, also students refer to Finance newspapers for regular basis for Market & corporate actions. Some students also have started investing in Mutual funds through SIP.

# **CASE-4**

## **Role Play**

**Supporting documents**

**Case: -4 (Example of Role Play through SMART- Sales, Marketing and Recruitment Training)**

During the classroom teaching faculties more focus is to develop Problem Solving techniques. To develop this skill number of activities are conducted while classroom teaching as per the specializations. For example, for Agribusiness management students, faculty selected the students and make the teams. Some members of team are playing the role of customer and some are in the character of sellers. Students who are sellers have to sell the product (Fertilizers/pesticides etc) to the customer. Through this approach student learned many concepts like while selling a product what all skills are required and how to handle the problems if arise. Another example is from Pharma Specialization. Subject expert formed the groups and allotted the task like to play a role of product manager of particular selected brand and the remaining group has to play a role of medical representative. The learning for the group first was to learn the process of product management. The learning for second group was to know the profile of Medical Representative.

# **Case Study**

# **Digital Business**

## **Supporting documents**

### Case Study

As a part of academics and the need for a new method of teaching adoption, the Digital business faculty teaches subject topics with the help of Audio-video content that is available on the social platform which is easily accessible to all. There are many concepts that need to be explained with the help of video content that mainly focuses on the practical application of those concepts. For example, one concept is the Internet of things (Unit 2 as per the SPPU Digital Business syllabus) which include smart home, smart car, and smart city. The faculty plays videos that show what an exactly smart home is or a smart vehicle is. Video enrich the knowledge of students and thought process will be developed which help them to imagine of future of that concepts. We also create a Google classroom for Digital business subject where students can easily access these videos through links whenever they needed. Which satisfies our course outcome as mentioned in syllabus.

**WHAT IS SMART CITY/VILLAGE...?**

*"A city/village equipped with basic infrastructure to give a decent quality life style, a clean and sustainable environment through application of some smart solutions." (public information, grievance, redressed, electronic service delivery, citizens engagement, waste to energy and fuel, waste to compost, 100% treatment of waste water, smart meters and management, monitoring water quality, renewable source of energy, efficient energy, and green building, smart parking, intelligent traffic management system.)*

**NEED OF SMART CITY/VILLAGE**

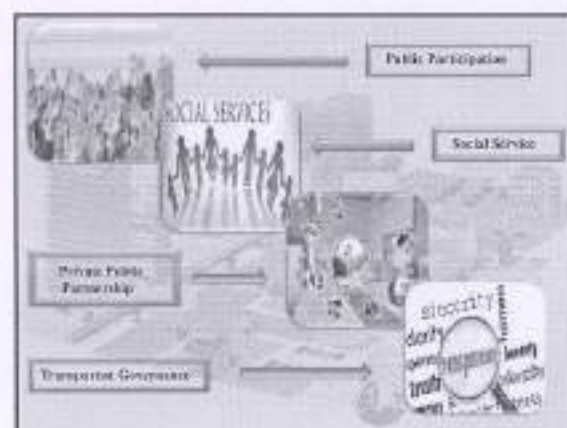

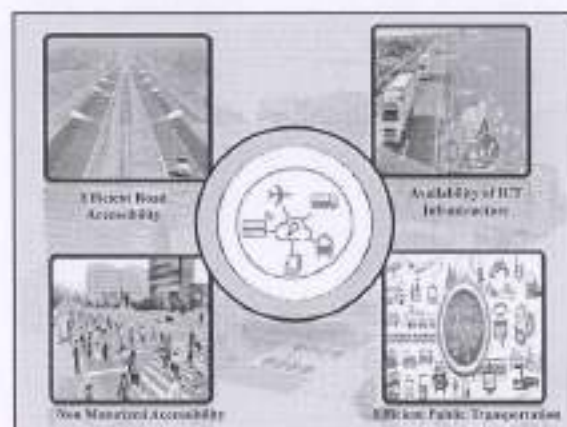

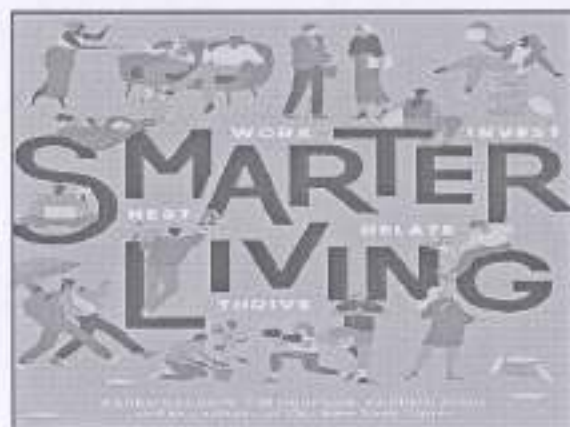

- Efficient delivery of public utilities such as water, electricity, solid waste, sanitation, and sewerage as well as associated government services.
- Mechanism for supply-demand matching of surface transport services to provide congestion free roads, and reduced waiting time for public transport customers.
- Active surveillance, monitoring and alerts at strategic points in the city to provide the much required public safety for citizens.
- On demand availability of reliable emergency services such as ambulance, fire safety.

**VISION/OBJECTIVES OF SMART CITY/VILLAGE**

## Smart Parking

➤ Smart parking with the help of a app.  
➤ App will provide accurate and real-time parking information.

➤ Provide users with the ability to locate, pay for, and even extend the parking session remotely.  
➤ App determine whether the parking spots are free or occupied and create a real-time parking map.

➤ This app will also reduce the time, drivers had to wait to find an empty space which would also help reducing congestion and pollution.

➤ smart parking system integrates entrance barriers, detection loops, signage and ASPR cameras with building access systems.

➤ The system can differentiate between employees and visitors so once the license plate has been read and the barrier automatically opened, signage displays directional information relevant to that specific driver, ensuring that visitors and employees are taken to their designated parking areas.

## Smart lighting

➤ Smart lighting enables households and users to remotely control cooling, heating, lighting, and appliances, reducing unnecessary light and energy use.

➤ Smart lighting also involves utilizing natural light from the sun to reduce the use of man-made lighting. A smart lighting system can ensure that dark areas are illuminated when in use.

➤ The lights actively respond to the activities of the occupants based on sensors and intelligence (logic) that anticipates the lighting needs of an occupant.

➤ The use of automatic light dimming is an aspect of smart lighting that serves to reduce energy consumption. Automatic lighting systems including occupancy sensors and individual (personal) controls are suitable for open-plan office environments and can save a significant amount of energy.  
➤ The detector senses motion and determines whether there are occupants in the space. It also has a timer that signals the electronic control unit after a set period of inactivity. The control unit uses this signal to activate the switch/relay to turn equipment on or off.

## Smart Water Solution

By investing in AI technology water utilities can collect and correlate the real time data from their water network to achieve real time data driven business efficiencies this data enables the water utility to improve leak detection pinpoint leak location verify leak alarms in real time eliminate false leak alarms enhance real time monitoring of the network react to network or water quality issues quickly, manage pressure to reduce bursts and improve customer service to provide water 24\*7.

## Smart Pollution Control

➤ An environmental pollution prevention and control system in combination with Internet of things.

➤ The system transfers data through the Internet, which also utilized sensor, air sensor and smoke sensor to spots in environment data.

➤ Besides, combined with the video data acquired through monitoring, the data are transferred to data center to analyze the haze pollution, water pollution and fire disaster in environment.

➤ According to the results, multi-purpose vehicles are mobilized to complete the tasks such as spraying water to remove haze, water source purification and fire fighting in city environment.

➤ Experiments show that the environmental pollution prevention and control system can automatically complete the urban environmental pollution detection, prevention and control, which thus reduces human and material resources and improves the efficiency of pollution prevention and control. Therefore, it possesses greatly practical significance in the construction of smart city.

## Smart Classroom

The smart school is a technology based teaching learning Institution for preparing children for the information age.

- Easy access to information.
- Taking notes on a digital medium.
- A better understanding of topics through digital tools.
- A great option for students who are absent.
- Learning in a dynamic manner.
- A teaching environment that is interactive.
- Paper is replaced by digital tools.
- They are easy to maintain.

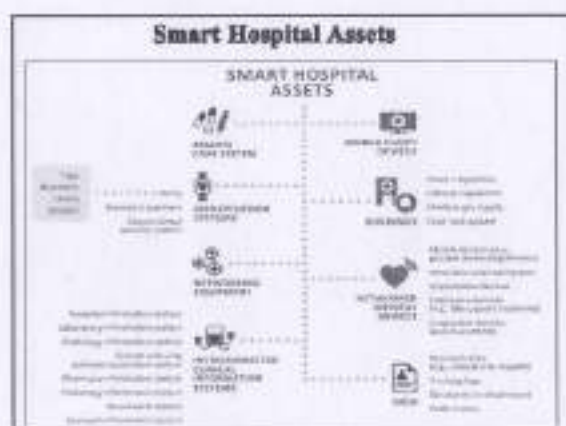

## Smart Hospital

➤ A smart hospital relies on optimized and automated process built on interconnected assets.

➤ Based on IOT, to improve existing patient care procedure.

*Signature*  
Director  
Swami Sevabhavi Sanstha's  
Lotus Business School  
Pune - 411 033.

1. More effective, data-driven decision-making
2. Enhanced citizen and government engagement
3. Safer communities
4. Reduced environmental footprint
5. Improved transportation
6. Increased digital equity
7. New economic development opportunities
8. Efficient public utilities
9. Improved infrastructure
10. Increased workforce engagement

BARRIERS IN DEVELOPMENTS OF  
SMART CITY/VILLAGE

**Cities lack technology-related skills and capacity.**  
Cities need to understand which technologies are available and how they might benefit their places in order to be effective co-designers, collaborators and clients of smart city projects. This requires specific ICT and technology-related skills and expertise which are often scarce within cities.

Cities find it difficult to work across departments and boundaries. Many of the smart cities initiatives include integrating different policies and information systems such as linking cycling with carbon reduction or integrating data relating to unemployed individuals from different departments onto a single platform. This requires breaking down silos and joint working between departments across agency boundaries. • In practice, budgets and strategies are seldom coordinated across departments and data is rarely shared. • For example, funding for roads, rail, and sustainable transport is set separately.

Concerns about data privacy, security and value

Data needed for initiatives such as open data platforms and the integration of health services is not always accessible. This is mainly due to privacy and security issues or other difficulties such as the lack of technical knowledge to generate or manipulate data. For example, the launch of care data, a database which integrates data gathered from GPs with hospital medical files was postponed due to concerns over data privacy and possible breaches.

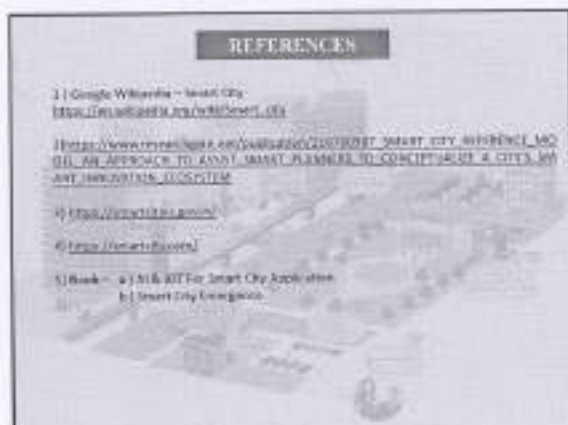

Increasing citizen take up and participation is difficult. Currently, states and the private sector are finding it difficult to increase citizen participation in the policy agenda beyond the committed few. This is due to some people having limited access to broadband or not having the skills and confidence to use the Internet – especially in poor and rural communities and among older people.

## CONCLUSION

Smart cities are continuously upgrading with smart devices. Smart city lighting systems constituted of modern luminaires with illumination control are found to be much more versatile and energy efficient. System modeling and simulation of various outdoor illumination methods in a smart city were carried out based on factors such as the type of luminaires, duration, and zones. The proposed dynamic-CEFRAS provided better on-demand illumination and achieved a better lifetime with less power consumption than the conventional illumination method and static-CEFRAS. The future direction of this work is to design a role assignment scheme for a distributed environment.

### What is smart city?

A smart city uses information and communication technology (ICT) to improve operational efficiency, share information with the public, and provide a better quality of government services and citizen welfare. The main goal of a smart city is to optimize city functions and promote economic growth while also improving the quality of life for citizens by using smart technologies and data analysis. The vision behind this technology is smart rather than simply how much technology is available.

### Why do we need smart city?

- Smart Governance**  
Provide good information to the citizens.
- Transportation**  
Smart roads built on existing roads with electronic services allow 100% freedom of water usage.
- Smart Infrastructure**  
Smart roads built on existing roads with electronic services allow 100% freedom of water usage.
- Smart Services**  
Smart roads built on existing roads with electronic services allow 100% freedom of water usage.
- Smart Security**  
Smart roads built on existing roads with electronic services allow 100% freedom of water usage.
- Smart Environment**  
Smart roads built on existing roads with electronic services allow 100% freedom of water usage.

## INTRODUCTION

- IoT/Internet of Things
- Smart Governance
- Smart Infrastructure
- Transportation & Mobility
- Health & Safety
- Smart Lights
- Smart Energy
- Smart Environment & Climate Management
- Big Data Management and Analytics
- Smart Monitoring System
- Security & Resilience

### Transportation & Mobility

Advanced Traffic Signal  
Better Public Transportation Facility

- Quick Accident Report
- Traffic Signal Control System
- Control Room

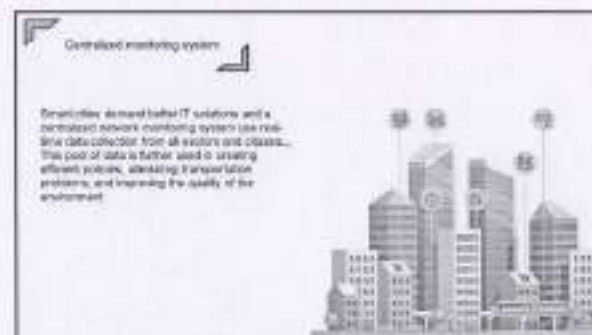

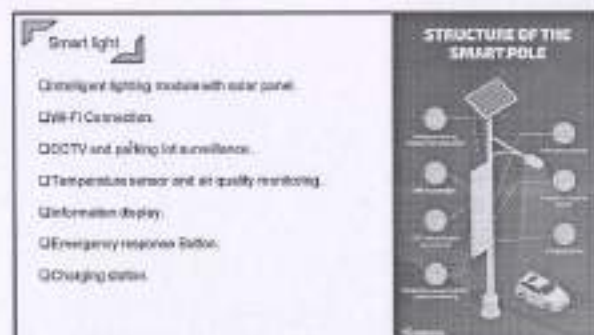

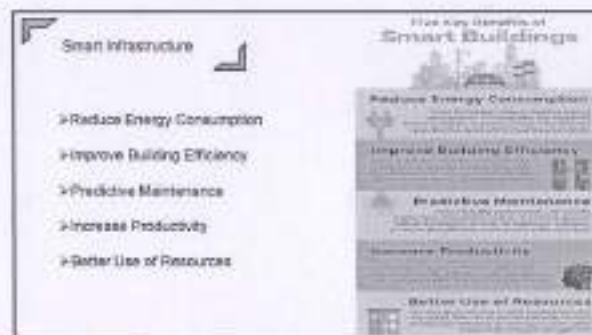

### IoT/Internet Of Things

The Internet of Things (IoT) describes the network of physical objects—"things"—that are embedded with sensors, software, and other technologies for the purpose of connecting and exchanging data with other devices and systems over the Internet.

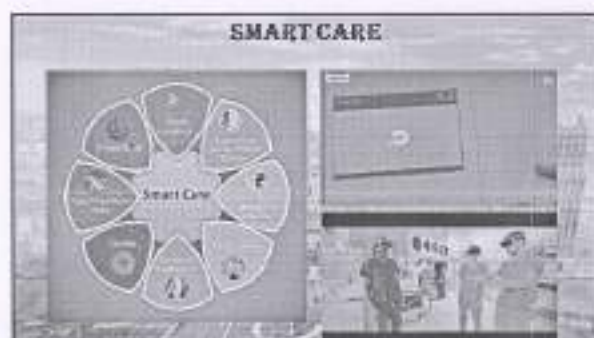

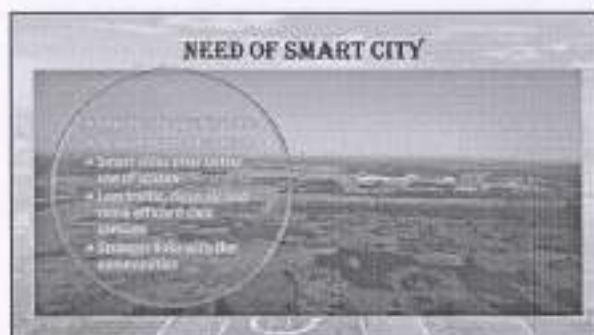

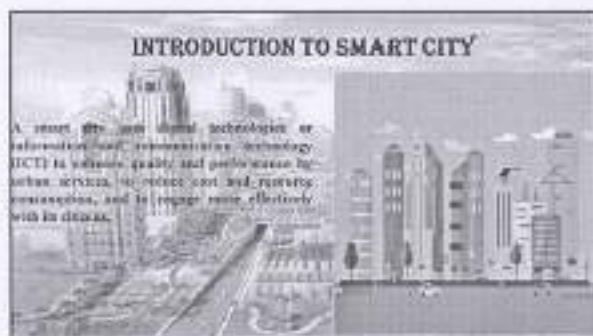

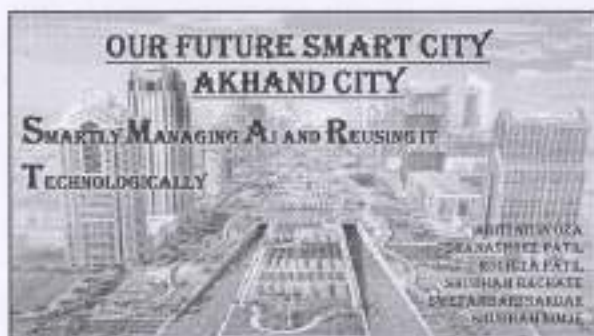

i.e. Alexa, air, smart home appliances, smart watch

### Vertical axis windmill highway application

Wind energy is one of the non-conventional forms of energy and it is available in abundance.

Electricity can be generated with the help of vertical axis wind turbine. This projects ideas of utilizing wind thrust of passing vehicles to create energy.

The power developed is stored in battery and then can be used for street light, signal or toll.

In this project a small model has been created for testing purposes so that the government can think over this project and can implement on highways.

### How IOT makes city smarter

Connectivity the intersections can monitor the traffic movement and coordinate the traffic violations. This automated system would be unbiased, quick and effective in nature.

Also in the quality of water and gas pipeline suggests a possible leak or contamination. This enables the authorities to fix the problem even before the common public reports it.

### Smart and fast transportation

Magnetic Levitation (Maglev)

Multimodal mobility options—through Mobility-as-a-Service (MaaS)

### Digital governance

Making city administration work 24/7 paperless.

One app enables for citizens to deliver every scheme related information and its various processes.

Smart administration by using AI and software to handle various administrative services.

### PESTLE Analysis of Smart City

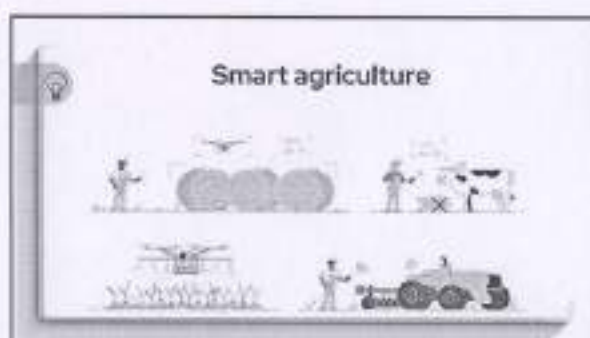

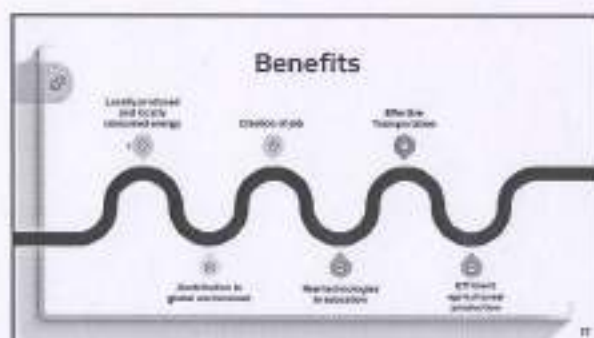

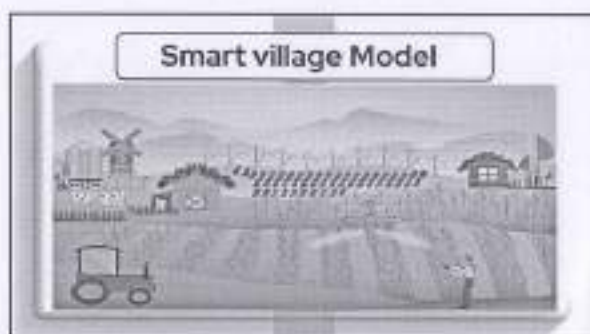

### Conclusion

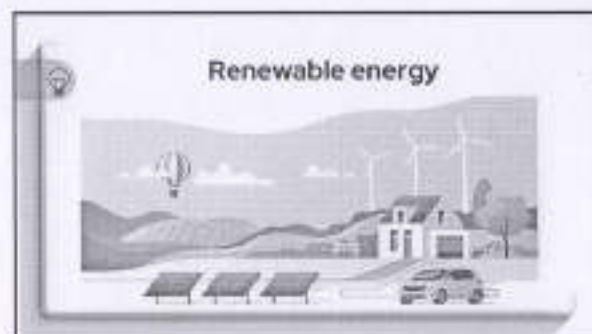

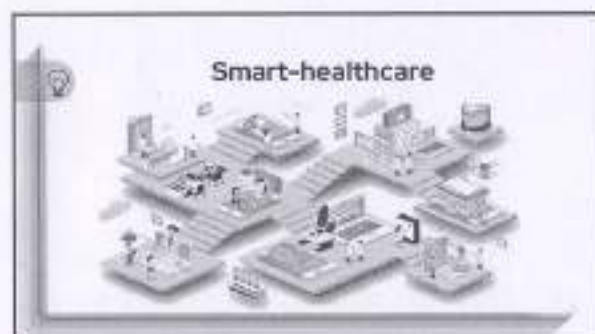

- Observing our population rise and migration of people toward cities, Smart cities are very important to provide good lifestyle and facilities.
- As we move forward the smart city planning we realize that technology is the key.
- We should remember in the desire of building smart city. Maintaining environmental and resource sustainability is very important.

## ASSIGNMENT

Name- Pradip Uttam Sawant

Class – MBA 1<sup>st</sup> year

Division- Honour

Roll NO.- H044

### Union budget 2022-2023 (Agricultural SECTOR)

Union Finance Minister, Nirmala Sitharaman, on 1<sup>st</sup> February 2022 presented her 4<sup>th</sup> budget speech at Delhi. The Finance Minister said that India's growth estimated to be at 9.2%, highest among the all large economics. The union budget is the annual report of India as a country. It contains the government of India's revenue and expenditure for the end of a particular fiscal year, which is run from 1 April 2022 to 31 March 2023.

**These are the points include in annual budget related to agricultural sector**

- 2023 has been announced as the international years of millets. Support will be provided for post-harvest value addition, enhancing domestic consumption, and for branding millet products nationally and internationally.
- Towards procurement of wheat and paddy under MSP operations, government to pay Rs 2.37 crores to 1.63 crore farmers.
- Allocation towards production linked incentive (PLI) scheme in a food processing has been increased to RS 1,022 crore from Rs 10 crore will boost export of value-added products thereby fetching higher realizations for food processors.

## Report On Union Budget Impact On Agricultural Sector 2022-23

Finance Minister, Nirmala Sitharaman, has presented the Union Budget 2022-23 as part of the 25 year lead up to India's 100 year independence. India's 2022 budget aims to harness the momentum that has made India the fastest growing large economy, targeting new growth opportunities in the green economy and tech industries. The government is pushing forward with its citizen empowerment agenda, promising jobs, inclusive development, healthcare transformation and female empowerment. The Finance Minister told many schemes related to the agricultural sector. I think these schemes will be useful to the farmers. Following points are related to agricultural sector:

- The allocation of money to agricultural education and research has been reduced in the union budget 2022-23.
- Therefore, a 25% decrease in allocation over fiscal 2022 is anticipated to impact rural income fiscal 2022 for fertilizer subsidy is more than enough to take care of the current subsidy, which is due to manufactures.
- Allocation towards Production Linked Incentive (PLI) Scheme in food processing has been increased to Rs 1,022 crore from Rs. 10 crore will boost export of value added products thereby fetching higher realizations for food processors.
- Chemical-free Natural Farming will be promoted throughout the country, with a focus on farmers lands in 5-km wide corridors along river Ganga, at the first stage.
- 2023 has been announced as the International Year of Millets. Support will be provided for post-harvest value addition, enhancing domestic consumption, and for branding millet products nationally and internationally.
- To reduce our dependence on import of oilseeds, a rationalized and comprehensive scheme to increase domestic production of oilseeds will be implemented.

  
Director  
Swami Sevabhavi Sanstha  
Lotus Business School  
Pune - 411 033

- For delivery of digital and hi-tech services to farmers with involvement of public sector research and extension institutions along with private agri-tech players and stakeholders of agri-value chain, a scheme in PPP mode will be launched.
- Use of 'Kisan Drones' will be promoted for crop assessment, digitization of land records, spraying of insecticides, and nutrients.
- A provision 8513.62 crore has been made department of agricultural and education under the union minister of agricultural and farmer welfare in the budget.
- A provision 343.30 crore has been made in the next financial year in animal science.
- Rs.900 crore and Rs.600 crore have been allocated under the edible oil, oil-palm and edible oil seeds schemes for next fiscal year, respectively.
- Financial support will be provided to the farmers belonging to SC and ST, who want to take up Agro-forestry.
- Towards procurement of wheat and paddy under MSP operations, Government to pay Rs. 2.37 Lakhs crores to 1.63 Crore farmers.
- Allocation to the Department of Agriculture, Cooperation and Farmer's Welfare has increased 4% over fiscal 2022.
- Urea subsidy has reduced 17% while nutrient subsidy has declined 35% for fiscal 2023 over fiscal 2022.
- Allocation for the Livestock Health and Disease Control Programme has been increased to Rs. 2000 crore in fiscal 2023 from Rs. 886 crore in fiscal 2022.
- States will be encouraged to revise syllabi of agricultural universities to meet the needs of natural, zero-budget and organic farming, modern-day agriculture, value addition and management.

# Union-budget - Important topic

2022-2023

Feb-2022

Ministry of Finance  
Budget Division

## ① KEY Features Goals of AMBIT KAAL

### \* Highlights

- 1] Focus on growth & all inclusive welfare
- 2] Promoting technology enabled development, energy transition & climate action.
- 3] Virtuous cycle starting from private investment, crowded in by public investment.

### \* Properties.

- 1) PM Gati Shakti
- 2) Inclusive Development.
- 3) Financial investment.
- 4) Productivity enhancement & investment, sunrise opportunities, Energy Transition & climate action.

Director  
Swami Sarabhavi Sanstha's  
Lotus Business School  
Pune - 411 033

## 2. PM GATISHAKTI Initiative

- Driven by Seven engines: Roads, Railways, Airports, Ports, Mass Transport, Waterways & logistics infrastructure.

- National Master plan aimed at world class modern infrastructure & logistics synergy.

- Formulation of Master plan for expressways. Completing 25000 km national highways in 2022-23.

- Unified logistics interface platform allowing data exchange among all mode operators.

- Open Source mobility Stack for seamless travel of passengers.

- Integration of postal & Railway network facilitating parcel movement.

- One station one product.

- 400 new generation Vande Bharat Trains.

- National Ropeways Development plan as sustainable alternative to conventional roads.

- Capacity building for infrastructure project.

# Agriculture & Food Processing

## Agriculture

- promoting chemical free natural Farming Starting with farmer lands close to river Ganga.

- promoting post harvest value addition consumption & branding of millet products.

## Food processing

- Delivery of Digital & Hi-Tech Services to Farmers in PPP mode.

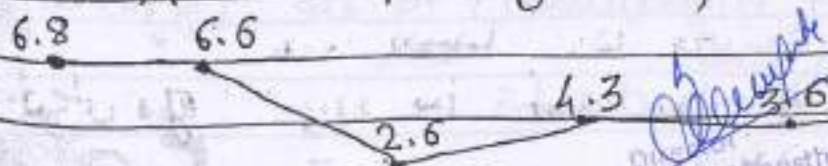

- Use of Kisan Drones to aid Farmers.

- Launching Fund with blended capital to finance agriculture starts ups.

- Implementation of Ken Betwa link project benefitting 9.1 lakh hectare Farm land, providing drinking water to 62 lakh people & generating 130 MW power.

- 5 more such projects under process of implementation.

Resilient growth in agri sector (1)

## —o EDUCATION —o

\* Universalisation of Quality education \*  
1) one class one TV channel programme to be expanded to 200 TV channel.

• Virtual labs & Skilling e-labs to promote critical thinking skills & Stimulated learning environment.

• A Digital University will be established with world class quality universal education.

2) High quality e-content will be delivered through Digital Teachers.

## Skill Development

• Digital Ecosystem for Skilling & Livelihood will be launched to promote online Training.

• Startups will be promoted to Facilitate Drone Shakti for Drone AS-A-Service.

## —o HEALTH —o

- National Digital Health Ecosystem will be rolled out.  
- National Tele mental health programme will be launched for quality Counselling.

- Integrated architecture: Mission Shakti, Mission Vatsalya, Saksham Anganwadi, & Poshan 2.0 to be launched.

- Two lakh Anganwadis to be upgraded to Saksham Anganwadis.

defined budget.

## Outlay in 2022-2023

\* Saksham Anganwadi & Poshan 2.0 - 20263 crore

\* PM Poshan - 10234 crore

\* Mission NatSalya - 1472 crore

\* Mission Shakti - 3182 crore

### — All inclusive welfare focus —

1. Har ghar, Nal se Tal: 3.8 crore households to be covered in 2022-23.

2. PM awas yojna: 80 lakh houses to be completed in 2022-2025.

3. PM - DEVINE: To fund infrastructure social development based on felt needs of the North east.

4. Aspirational Blocks programme: for development of lagging blocks of aspirational districts

5. Vibrant Villages programme: Targetting development of villages on the ~~east~~ Northern Border left out from the development plans

6) Digital Banking by post offices, to or of post offices to come one the core banking system.

7) Digital Payments: Scheduled Commercial Banks to set up 75 Digital Banking units in 75 districts.

- productivity Enhancement + investment

### o Ease of Doing Business 2.0. —o

## Trust based governance

- Integration of central & State level Systems Through IT bridges.

- Expanding scope of privatisation

- uniq land parcel identification numbers for IT based management of land records.

o — Ease of living — o

- Instance of chip embedded e-passports

- Modernisation of building bylaws,

Implementing town planning schemes + Transit oriented Development.

- Establishing centres of excellence in urban planning.

o Allocation under PLI Scheme/1  
2022-23 BE (in crs)

-1) Tele Com & Networking Product - 528 cr<sup>7</sup>  
530 cr<sup>com</sup>

2) large scale electronic kit hard ware - 5300 com  
1627 com

### 3) Phragma cuticula

## — 0 Financing of Investment 0 —

— Public investment to continue to pump prime private investment & demand in 2022-23

— Introduction of Digital Rupee by RBI Starting 2022-2023.

— Infrastucture Status for Data Centres & Energy Storage Systems.

— Measures to speed up investment by venture capital & private equity investment.

## — 0 Mobilising Resources 0 —

— Providing greater fiscal space to States

— Enhanced outlay to Scheme for financial assistance to States for capital investment.

— For 2022-2023 States will be allowed a fiscal deficit of 4% of GDP of which 0.5% will be tied to power sector reforms.

## — 0 Tax proposals 0 —

— Allowing taxpayers to file updated return within 2 years for correcting errors.

• Tax relief to persons with disability

• Reducing Alternate Minimum Tax rate & Surcharge for co-operatives

• Increasing tax deduction limit on employer's contribution to NPS account of State Government

- Income from Transfer of virtual assets to be taxed at 30%.

- Better litigation management to avoid repetitive appeals.

This plan includes products with monthly and/or yearly subscription periods. The subscription period for each plan, and the total charge, INR1,300.00 (plus applicable taxes and regulatory fees), per subscription period for that product are set out above in the Charge Details section. Unless you cancel, your subscription(s) will auto-renew each subscription period and each subscription period thereafter, at the price(s) listed above (plus any taxes and regulatory fees applicable at the time of renewal) and your payment method on file at [zoom.us/billing](https://zoom.us/billing) will be charged. You can cancel auto-renewal anytime, but you must cancel by the last day of your current subscription period to avoid being charged for the next subscription period. You will not be able to cancel your "base plan" (Zoom Meetings, Zoom Phone, or Zoom Rooms) without first canceling all other subscriptions in your plan. If you cancel, you will not receive a refund for the remainder of your then-current subscription period. You can cancel by navigating to [zoom.us/billing](https://zoom.us/billing) and clicking "Cancel Subscription," clicking through the prompts, and then clicking to confirm cancellation. Should Zoom change its pricing, it will provide you with notice, and you may be charged the new price for subsequent subscription.

This plan includes products with monthly and/or yearly subscription periods. The subscription period for each plan, and the total charge, INR1,300.00 (plus applicable taxes and regulatory fees), per subscription period for that product are set out above in the Charge Details section. Unless you cancel, your subscription(s) will auto-renew each subscription period and each subscription period thereafter, at the price(s) listed above (plus any taxes and regulatory fees applicable at the time of renewal) and your payment method on file at [zoom.us/billing](https://zoom.us/billing) will be charged. You can cancel auto-renewal anytime, but you must cancel by the last day of your current subscription period to avoid being charged for the next subscription period. You will not be able to cancel your "base plan" (Zoom Meetings, Zoom Phone, or Zoom Rooms) without first canceling all other subscriptions in your plan. If you cancel, you will not receive a refund for the remainder of your then-current subscription period. You can cancel by navigating to [zoom.us/billing](https://zoom.us/billing) and clicking "Cancel Subscription," clicking through the prompts, and then clicking to confirm cancellation. Should Zoom change its pricing, it will provide you with notice, and you may be charged the new price for subsequent subscription.

This plan includes products with monthly and/or yearly subscription periods. The subscription period for each plan, and the total charge, INR1,300.00 (plus applicable taxes and regulatory fees), per subscription period for that product are set out above in the Charge Details section. Unless you cancel, your subscription(s) will auto-renew each subscription period and each subscription period thereafter, at the price(s) listed above (plus any taxes and regulatory fees applicable at the time of renewal) and your payment method on file at [zoom.us/billing](https://zoom.us/billing) will be charged. You can cancel auto-renewal anytime, but you must cancel by the last day of your current subscription period to avoid being charged for the next subscription period. You will not be able to cancel your "base plan" (Zoom Meetings, Zoom Phone, or Zoom Rooms) without first canceling all other subscriptions in your plan. If you cancel, you will not receive a refund for the remainder of your then-current subscription period. You can cancel by navigating to [zoom.us/billing](https://zoom.us/billing) and clicking "Cancel Subscription," clicking through the prompts, and then clicking to confirm cancellation. Should Zoom change its pricing, it will provide you with notice, and you may be charged the new price for subsequent subscription.

This plan includes products with monthly and/or yearly subscription periods. The subscription period for each plan, and the total charge, INR3,900.00 (plus applicable taxes and regulatory fees), per subscription period for that product are set out above in the Charge Details section. Unless you cancel, your subscription(s) will auto-renew each subscription period and each subscription period thereafter, at the price(s) listed above (plus any taxes and regulatory fees applicable at the time of renewal) and your payment method on file at [zoom.us/billing](https://zoom.us/billing) will be charged. You can cancel auto-renewal anytime, but you must cancel by the last day of your current subscription period to avoid being charged for the next subscription period. You will not be able to cancel your "base plan" (Zoom Meetings, Zoom Phone, or Zoom Rooms) without first canceling all other subscriptions in your plan. If you cancel, you will not receive a refund for the remainder of your then-current subscription period. You can cancel by navigating to [zoom.us/billing](https://zoom.us/billing) and clicking "Cancel Subscription," clicking through the prompts, and then clicking to confirm cancellation. Should Zoom change its pricing, it will provide you with notice, and you may be charged the new price for subsequent subscription.

This plan includes products with monthly and/or yearly subscription periods. The subscription period for each plan, and the total charge, INR1,300.00 (plus applicable taxes and regulatory fees), per subscription period for that product are set out above in the Charge Details section. Unless you cancel, your subscription(s) will auto-renew each subscription period and each subscription period thereafter, at the price(s) listed above (plus any taxes and regulatory fees applicable at the time of renewal) and your payment method on file at [zoom.us/billing](https://zoom.us/billing) will be charged. You can cancel auto-renewal anytime, but you must cancel by the last day of your current subscription period to avoid being charged for the next subscription period. You will not be able to cancel your "base plan" (Zoom Meetings, Zoom Phone, or Zoom Rooms) without first canceling all other subscriptions in your plan. If you cancel, you will not receive a refund for the remainder of your then-current subscription period. You can cancel by navigating to [zoom.us/billing](https://zoom.us/billing) and clicking "Cancel Subscription," clicking through the prompts, and then clicking to confirm cancellation. Should Zoom change its pricing, it will provide you with notice, and you may be charged the new price for subsequent subscription.

Zoom Phone services provided by Zoom Voice Communications, Inc. Rates, terms and conditions for Zoom Phone services are set by Zoom Voice Communications, Inc.

This plan includes products with monthly and/or yearly subscription periods. The subscription period for each plan, and the total charge, INR1,300.00 (plus applicable taxes and regulatory fees), per subscription period for that product are set out above in the Charge Details section. Unless you cancel, your subscription(s) will auto-renew each subscription period and each subscription period thereafter, at the price(s) listed above (plus any taxes and regulatory fees applicable at the time of renewal) and your payment method on file at [zoom.us/billing](https://zoom.us/billing) will be charged. You can cancel auto-renewal anytime, but you must cancel by the last day of your current subscription period to avoid being charged for the next subscription period. You will not be able to cancel your "base plan" (Zoom Meetings, Zoom Phone, or Zoom Rooms) without first canceling all other subscriptions in your plan. If you cancel, you will not receive a refund for the remainder of your then-current subscription period. You can cancel by navigating to [zoom.us/billing](https://zoom.us/billing) and clicking "Cancel Subscription," clicking through the prompts, and then clicking to confirm cancellation. Should Zoom change its pricing, it will provide you with notice, and you may be charged the new price for subsequent subscription.

Zoom Phone services provided by Zoom Voice Communications, Inc. Rates, terms and conditions for Zoom Phone services are set by Zoom Voice Communications, Inc.
