Company Overview

Onourem is a technology company dedicated to improving people's emotional and mental health. We conduct online and offline activities to help address social problems. One of the biggest challenges the world is facing is the degrading emotional and mental health of the people. . Onourem is a registered company in the USA and India.

Research has shown that social media is giving people a false sense of connection. Contrary to what 'social networking' suggests, more people today feel lonely, bored, sad, stressed, and insecure than ever. COVID-19 lockdown has only amplified this challenge.

The good news is that Harvard's longest-running research on happiness suggests that deeper, meaningful relationships are the key to living a long, happy, healthy, and satisfying life. It is the quality of the social relations that make humans happy and not the number of relationships. We are better off investing in our close relationships than endlessly spending time on 'social networking' that is harmful for our relations and our mental health.
